

2 December 2011

To Whom It May Concern:

I confirm that SB Projects undertook the design and construct fit out of our office in June 2011. The project budget was approximately \$500k and the project size was approximately 311 square metres.

SB projects were required to assist us with material selection and office relocation, as well as delivering on time and on budget. Overall I am extremely happy with the end result and the manner in which SB Projects conducted themselves.

I would be more than happy to work with SB Projects again and can confidently recommend them.

If you have any further questions in relation to SB Projects, please do not hesitate to contact me on 0425 258 818 or at alex@austechfacades.com.au.

Yours faithfully,

Alex Imvriotis
Director
