To Whom It May Concern:

Letter of Support

I am writing this support letter for Mr Bryan Palmer, a builder, whom our organisation engaged recently for our new office fit out, to build and install office partitions.

In the weeks that I have been associated with Bryan his diligence to pursue perfection and efficiency at our office site, has been for us, most commendable, we would have been flying blind without his assistance, with fire sprinklers, electricity and data point installation.

Mr Palmer professionalism showed through and no extra job stipulations were any problem, when we asked for an automatic entry door, for our staff with disabilities to access, it was installed within days.

I found Bryan to have a wealth of knowledge regarding the needs not only of the office environment but also the budget constraints of the non government sector and his personally to be able to put people at ease, while guiding them through the best options for the fit out. His contact base also made our move easier and done to a professional standard.

I would not hesitate to promote Mr Palmer and his staff at any time.

Regards

June Riemer
